Connect. Collect. Analyze. Repeat.

CONNECT
Connect your equipment to RRAMAC's EdgeScout server through a secure internet. No firewall holes required. Connectivity options include Secomea SiteManager and Banner DXM.

ANALYZE
At the end of your 60 Day FREE trial, we will provide a consultation to review findings and make recommendations on ways to increase productivity, reduce operating costs, and increase value to your customers.

COLLECT
Collect key process variables from PLCs or sensors on the EdgeScout server. Your web display will include a live dashboard, historical trending, and email and text alerts.
